SUMMARY

I am a Front-End Development Specialist with strong experience in building fast, scalable, and SEO-friendly web applications using Next.js, React.js, JavaScript, TypeScript, Bootstrap, and modern CSS/SCSS. I focus on creating clean UI, smooth user experiences, and high-performance applications across all devices.

I have hands-on expertise in API integration, dynamic components, SSR/SSG, responsive layouts, reusable component architecture, Swiper sliders, animations, and converting complex UI/UX designs into pixel-perfect interfaces. I also optimize website speed, Core Web Vitals, SEO performance, and fix front-end issues with efficient and scalable solutions.
